

LINNEA LUEKEN

SENIOR FELLOW, ARTHUR B. ROBINSON CENTER ON
CLIMATE AND ENVIRONMENTAL POLICY

CLIMATE REALISM - ENERGY - ENVIRONMENTAL POLICY

A petroleum engineer by training (B.S., University of Wyoming, 2018), Linnea Lueken brings hands-on technical credibility to the climate and energy debate for what *The Economist* magazine calls “the world’s most prominent think tank supporting skepticism about man-made climate change.”

Linnea hosts Heartland’s *Climate at a Glance* video series, which has topped 10 million views across YouTube, Rumble, Facebook, and X, and co-hosts two weekly livestreamed programs, *In the Tank Podcast* and *The Climate Realism Show*.

AVAILABLE FOR COMMENTARY

CLIMATE SCIENCE

- Debunking Climate Myths
- Extreme Weather Facts vs. Fear
- Media Narratives vs. Real Science

ENERGY EXPERTISE

- Hydraulic Fracturing (Fracking)
- Energy Independence
- Fossil Fuels and Grid Reliability

ENVIRONMENTAL POLICY

- Regulatory Impacts
- Costs of Energy Transitions
- Climate Activism and Policy

10,000,000+ views on the *Climate at a Glance* video series across YouTube, Rumble, Facebook, and X.

5 videos with John Stossel and PragerU, including three debunking climate myths, with millions of views.

2 weekly live programs co-hosted (*In The Tank Podcast* and *The Climate Realism Show*).

A PROVEN BROADCAST PERFORMER

Comfortable across formats - long-form podcast, cable TV, drive-time radio, or short-form video - and speaks fluently to both technical and general audiences.
